

## Data sheet

**Story:** The Tari beers tickle our region with irony; they enhance its character and tell about the contaminations with cheerful tributes. A meeting, a handshake, as it happens in our areas, and the understanding emerges from the deepness, which Sicily floats on.

Just a few miles off the Ionian sea, in the cove of Catania, the company Aquamaris collects its waters and passes it through a microfiltration and sterilization process, which preserves its salinity and mineral composition. The use of sea water in cooking is a tradition that has been passed down over the centuries, but the idea of using it to make beer is much extremer.

Sciascia used to say that you can't live in our island without imagination: therefore, we imagined. So, hops and malts took a huge dive, beyond the certainties of tradition: a Gose that connects Sicilian Russello wheat with the water of our sea.

Hence, this is the Gose Tari Aquamaris...

**Category:** NORMAL LIGHT BEER

**Type of beer:** Gose.
